

2020 International Symposium on Slope Stability in Open Pit Mining and Civil Engineering

FIRST ANNOUNCEMENT

12 – 14 May, 2020 | Perth, Western Australia

Slope Stability 2020 will provide a forum for open pit mining and civil engineering practitioners, consultants, researchers and suppliers worldwide to exchange views on best practice and state-of-the-art slope technologies.

Best practice with respect to pit slope investigations, design, implementation and performance monitoring will be discussed during the symposium.

The ACG is delighted to host this event in Perth again. It has been more than a decade since it was last held in Western Australia.

Past symposia have been held in:

- Seville, Spain, 2018
- Cape Town, South Africa, 2015
- Brisbane, Australia, 2013
- Vancouver, Canada, 2011
- Santiago, Chile, 2009
- Perth, Australia, 2007
- Cape Town, South Africa, 2006

Symposium Chair

Professor Phil Dight

Professor of Geotechnical Engineering
Australian Centre for Geomechanics
The University of Western Australia, Australia

Sponsorship Opportunities

To express your interest, please contact the ACG on +61 8 6488 3300 or email events-acg@uwa.edu.au

Supporting Organisations

Online Repository of Conference Proceedings

The repository aims to provide the mining geomechanics fraternity with open access to peer-reviewed conference proceedings across the geotechnical mining spectrum that may assist readers to maintain and develop their skills, knowledge and capabilities. Visit <https://papers.acg.uwa.edu.au>

Accessing geomechanical excellence
